

## BIO PROFILE PHIL DACK

### INFRACYCLE FISCAL SOLUTIONS

*Dedicated to Improving Your Municipality's Fiscal Performance!*

Phil Dack has a very wide range of land use and development planning experience focused in Alberta and Western Canada. Over three decades he has worked in the public and private sector managing all scales of planning studies including: major regional growth strategies, new town planning and individual urban and rural sites.

Phil has worked with InfraCycle since 2009 and brings a detailed understanding of project management, development costs, marketing, economic development approaches and risk management that can assist municipalities in realistically addressing fiscal challenges.

His planning and economic development experience includes large and small rural municipalities and urban centres including: Edmonton, Vancouver, Toronto, Calgary, Banff, Canmore, Lethbridge, Red Deer County, MD of Foothills, Fernie, Ft. McMurray and the oil sands. He has worked with First Nations in B.C. and Alberta.

His particular interest in citizen engagement is evidenced by his organizing and/or leading over 600 public meeting and processes. He has also lectured on public engagement and the resolution of land use disputes at the University of Calgary and numerous other workshops.

As a mediator, Phil is an expert in resolving disputes and crafting collaborative agreements. His talent ensures all parties leave with a strengthened and viable solution. He has worked with many municipalities and a number of Government of Alberta ministries.

*"InfraCycle has allowed the Town of Canmore to complete an evaluation of our Town at build-out. We need reassurance that fiscally these plans are sound and will generate revenue to support our infrastructure and community services in the short and long-term."*

**Gary Buxton, Manager of Planning & Development, Town of Canmore, AB**
