

BIO PROFILE

RODERICK DE LEEUW

INFRACYCLE FISCAL SOLUTIONS

Dedicated to Improving Your Municipality's Fiscal Performance!

Roderick de Leeuw, Senior Associate with InfraCycle Fiscal Solutions is a financial professional with over 20 years' experience, Rod has completed high level financial analysis and financial system designs. He is also proficient at the gritty parts of data conversion and complicated financial modelling. Practical, precise and detail oriented, Rod has experience leading teams to exceptional results.

For 11 years Rod held Senior Management positions with the rapidly growing municipality of Canmore where he was *General Manager of Community Infrastructure* and *Senior Manager of Financial Services*. His responsibilities included: implementing the Town's Off-site Levy Model, expanding the model's functionality, a complete rebuild with maintaining data, tracking revenues, expenses and working with land developers.

Rod also has experience in software design, software development and implementation. In 2013 Rod held the position of Acting Chief Financial Officer for the Regional District of Central Kootenay where his responsibilities included:

Lead implementer for Agresso Business World software

- Full financial system replacement
- 162 budgets, 80+ tax areas, Project and Work order level accounts
- \$1M overall project budget
- Lead design and workflow implementer

"InfraCycle has allowed the Town of Canmore to complete an evaluation of our Town at build-out. We need reassurance that fiscally these plans are sound and will generate revenue to support our infrastructure and community services in the short and long-term."

Gary Buxton, Manager of Planning & Development, Town of Canmore, AB
